

Company

Our company

A giveaway is an essential tool for establishing customer relationships and fostering customer loyalty.

We can provide you with a comprehensive procurement solution which will leave you more time for your business. We achieve this through a comprehensive range of products, customized manufacturing and advertising materials tailored to your company's needs.

Shanghai Everjoy Gift can look back on more than ten years of experience in the fields of product development, product management, export and logistics. We have access to a network of first-class suppliers all over China. Our customers are small and large companies from the USA, Asia, Europe, and Germany.

Our Service:

- ☑ Product development & design
- ☑ Product procurement
- ☑ Selection of manufacturer
- ☑ Delivery schedule management
- ☑ Quality assurance
- ☑ Logistics

We consider ourselves as a link between companies and giveaways and we combine German reliability with the highest quality standards and local know-how.

Our goal is to provide you with the perfect product.

Product portfolio

Everjoy Gift products are not just "ordinary giveaways". We can supply you with ideas and presents that are tailored to appeal to specific target groups. A well-selected present supports sales promotions for various occasions: To congratulate or motivate people, as a token of appreciation or as a souvenir.

Our broad portfolio includes: office supplies, writing utensils, organizers, sunglasses, coffee cups, calendars, sports equipment, bags, textiles and many other gift ideas.

You can contact us directly and order various articles with your logo on them or other customized items. We take care of everything.

Products – as unique as our customers

In cooperation with a German industrial company located in China, we are able to develop and manufacture articles according to your expectations. We design a sustainable concept, engineer and produce the prototypes and support you right through to a trouble-free series production.

Four reasons to trust us

✓ Customizing

In cooperation with our clients, we develop customer-specific products. From the idea to the final product. 3D drawings and production materials are prepared in standardized development processes. Using a 3D printer, we produce functional prototypes.

✓ Sourcing & In-House Manufacturing

We can provide the perfect product for every occasion. Besides having our own production plants, we cooperate with a broad network of reliable manufacturers that encompass a comprehensive spectrum of products. You can order various articles with your logo on them or other customized items directly from us.

✓ Quality Management

Our company is characterized by its expertise in the fields of design, functionality and quality assurance. German engineers maintain the local production plants and can answer any of your queries. Consistently high quality is our top priority.

✓ Logistics

As a high-performance partner, we offer complete solutions for your individual needs in the field of procurement and distribution logistics. From our site in China, we ship all products worldwide to your subsidiaries and implement a complete logistics management solution.

We are right at your side

A major element of our company philosophy is providing you with the perfect service and finding the suitable giveaway for you. Together, we make the best selection and develop the right design to suit the product.

This creates a lasting impression on your business partners and sets you apart from your competitors.

All giveaways can be tailored to each other. We can recommend solutions and, together with you, we can determine which product fits your needs best.

You

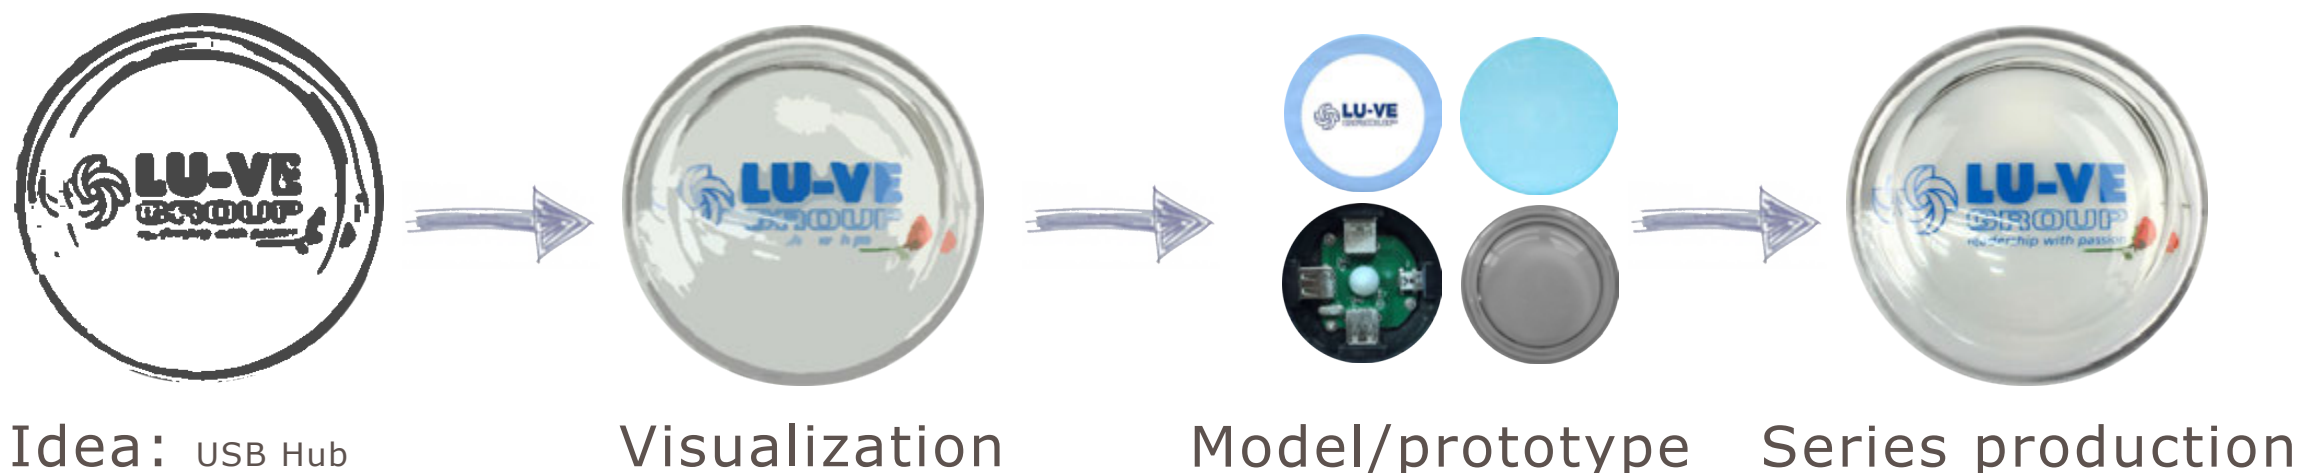

... are at the center.

We are committed to satisfying our customers requirements to the fullest. We provide development and production from a single source.

From the idea to production

You'd like to have a customized giveaway?

Together with you, we develop an individual product that suits your expectations and ideas. As a result, you'll get a unique article that reflects your company's corporate identity.

The development of your customized giveaway can be subdivided into four stages:

1. Idea

It all starts with an idea. As a first step, we, together with you, develop the requirements profile of the giveaway with respect to your corporate identity.

2. Visualization

Step two represents a graphical 3D presentation on which the production of a prototype is based. Meanwhile, our engineers check if the idea of the product is technically feasible.

3. Model/prototype

After verifying the product's concept and gaining your confirmation, we produce a first model or prototype of the article. In this development stage, any corrections or changes can be made at any time, in cooperation with you. Once the prototype meets your quality criteria, series production starts.

4. Series production

The last step is the series production of the product. If the customer wishes, we can take care of the complete logistics, including customs clearance and import of goods.

You can focus on your core business, while we make sure that your goods are delivered safely to your subsidiaries around the globe.

What makes us unique

Place your trust in a leading company in giveaways and promotion in China.

We can look back on ten years of successful product development, goods management, export and logistics.
